on Hanford Reserv. for haz waste dump site
requires congress. approval. estin 2 months
for " "

EPA memo
Aug 21 1979
P.M. Hansen

Pasco City Refuse Site

Hansen (EPA), Malm (DOE) Site visit on July 25, 1979
site - property leased by Res. Rec. Corp managed by L. Dietrich owned by
his father

solid waste landfill + septic tank sludge ponds in operation

1956-1971 open burning dump

1971 → converted to sanitary landfill

1973 or 1974 rec'd permission from DOE to use part of
prop as regional haz waste site - utilized by
several Wash. Org. firms

3 distinct ^{disposal} hazard waste sites on prop.

a. liquid waste lagoon

b. nearby pesticide sludge disposal area

c. 1/8 acre area a paint, oil, solvent, etc dispos. area

DOE reported to have inventory of material disposed there
Hazard Waste Site closed after a little over 1 yrs operation due to
complaints by local farmers of 24-D fume damage to
crops

Dietrich estimates Rhodin (Han. Portland Oregon, shipper)

~ 80 drums/day of 24-D residue - sources say some
leaked at bottom had no bungs

District says Groundwater at 20-80 ft
soil sandy loam, 7-8" rain /yr
no groundwater monitoring

On closing 24D site covered w/ plastic accord -
some plastic exposed by wind erosion - no exposed dike
Comments that reconstruction ^{with Co.} ~~will~~ discussed
closure agreement & future G.W. studies

Monthly lists from Res. Rec. of materials
rec'd at Pasco In-Spill

1st month May 1973

1st month Dec 74 ~~to~~ stat. tube first report
on pasco site!

Note June 73 letter "recaps" Rödin wastes rec'd

24 D Tn- 2011 drums
mcptar block 2965 drums
otherwise 435 drums
5411 drums

May 73 lists ~~482~~ mcptar 482 drums
Post Container 250 each

NO. Sept. 83 report //

Q-units = 1632 gals - were wasted in
drums or bulk
